

Biblical Integration Posters Order Form

Finally a resource that helps teachers and students think more biblically and critically. Measuring 16” x 22”, each poster defines basic Christian principles (with Bible references) in one of five categories: Creation, God, Mankind, Moral Order and Purpose. The primary set is written in simple language for beginning readers while the intermediate set is perfect for students in intermediate grades.

With these posters teachers can answer the question, “What does this lesson reveal about God?” and also:

- Generate integration points while lesson planning.
- Refer to the posters during classroom discussion.
- Have students make connections between the lesson and biblical principles independently or in groups.
- Help students develop an understanding of core Christian principles.
